The Agents of Change Program empowers students to turn their ideas into actions to tackle real-life problems that they are passionate about through a creative and experiential process where they work collaboratively with local communities to drive positive social impact.

This is a feature program developed by UWC Costa Rica based on Ashoka’s "Dream it. Do it." methodology, Design Thinking, and Experiential Education adapted with the help of international consultants Lorena Silvestri and Laurie Frank.

AGENTS OF CHANGE GOAL 2020-2021: $15,000

IMPACT:

🌟 Students develop tools and skills that allow them to turn ideas into action including critical thinking, communication, collaborative work, problem-solving, and more!

🌟 Students experience first-hand the Changemaker Process while at the same time sharing it with local communities in Costa Rica and beyond with whom they partner to create social entrepreneurship projects.
